

## Welcome to St. Rose of Lima online!

Last Updated Tuesday, 09 September 2008

St. Rose of Lima Catholic School is a center of education where its students learn to recognize and utilize his or her talents and powers in a positive direction. Our goals for each student are to provide his or her growth and strength in faith, excellence in education, and the development of his or her potential. St. Rose of Lima Catholic School exists to provide a faith-filled environment for academic excellence, self-discipline, mutual and self-respect, personal morality, a sense of community and social justice as taught by the Catholic Church. Primary Objective St. Rose of Lima Catholic School's primary objective is to provide for the needs of each child so that he or she can master basic academic skills and prepare for leadership and involvement in today's society. Parent/Guardian Guidance and Responsibility While the teachers and students set up their goals and ways of achieving those goals, each child's education is the responsibility of the parents or guardians. That responsibility extends to active involvement in the school and its events. To strengthen our moral and value system, we each need to employ the Church, the School and the Community to achieve the school's and students' goals for a provident and productive life. With this philosophy as the foundation of St. Rose of Lima Catholic School, we will respect each student's freedom, dignity and integrity.
